INTERNSHIP

Web Developer & Design (10/2023 - 11/2023)
I have worked as a Front End Developer in which my work is to make the UI user friendly. In that internship my task is to make a Pizza delivery app, In that app i have done UI part.

PERSONAL PROJECTS

Zomato Clone
- I have cloned Zomato website with the help of HTML & CSS .In this project.
- I have done coding from scratch, so that the UI will resemble same as the original website .

Portfolio website
- This website is created with the help of HTML &CSS.In this website.
- I have added all the links of my projects & contact.

Basic To-Do webapp
- This website allows user to add new items to a list.
- I have added a separate section titled Pending tasks that will list all the tasks that require completion.
- It is a union of pending task list and the completed task list.
